Mr. Robert Amory, Jr.

Dear Bob:

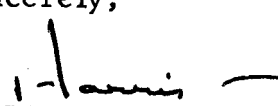

I was glad to hear that the Supplement to our Report on the CAMEL had reached your hands. If you have not already seen the original report, I believe that you might ask that it be shown to you. The material you received is simply supplementary to the basic report which we turned out some time ago. It was prepared with people like you and General Cabell and Mr. Dulles in mind. The photography is very selective and the report itself has been condensed way down. We are putting out these abbreviated reports for senior commanders whenever an appropriate subject is presented that in no way duplicates the basic report for the analysts. It is much more voluminous, much more technical and goes forward through the usual technical channels. The original CAMEL Report was in a leather folder and as I recall it was delivered to General Cabell several months ago. I think you might like to see it. You can read the whole thing in fifteen minutes. In any event, the supplement which you received should be inserted in the original report. It has been prepared with this in mind.

We are closing out in Tokyo this week and within the next few days will be on our way to Hawaii. I know your office will let me know when you travel in that direction. I might add that I would suggest that you bring your tennis equipment.

We had the great pleasure of seeing General Cabell, Huntington Sheldon, Dr. Guthe, and many others from your organization here during the past couple of weeks. It was very good to see them and we endeavored to tell them our story as best we could in the allotted time.

All the best to you, Bob.

Sincerely,

HARRIS B. HULL
